There has been considerable talk re-cently about re-arranging the commis-sioners districts in the county, a peti-tion having been presented to the com-missioners at their last meeting pray-ing to have the townships of Esmore, Marmaton, Osage and Deer Creek erected into one district, leaving the first district as it now is and giving the second the remainder of the townships. This petition originated in Moran and has been quite numerously signed in has been quite numerously signed in Marmaton and adjoining townships, the reason given for the change being that the townships named have more interests in common than they have with the townships with which they are now joined, and that the proposed arrangement would give a more nearly equal division of the population. The proposal meets with considerable opposition in Geneva and Carlyle townships ships, mainly on the ground that that part of the county has not been repre-sented on the Board for nine years and if the change is made it caunot have a

if the change is made it cannot have a representative for at least two years longer. The matter of making the change lies wholly within the discretion of the commissioners, the only limitation of the law being that the districts shall be as compact as practicable and that changes shall not be made oftener than once in three years. The Board now has the matter under advisement and will probably pass on it at the October meeting. It is likely that some change will be made, but it is doubtful whether it will be the one, it seems to us, would be to add the south half of Elsmore to the first district, let the second district be comsouth half of Elsmore to the first district, let the second district be composed of the north half of Elsmore, Marmaton, Elm and Osage, and the third of Iola, Geneva, Carlyle and Deer Creek. Those districts would each be compact and they would divide the population more equally than any other arrangement that could be made. True, this would leave the east part of the county without a commissioner for two years, but as it has had one constantly for 9 years this ought not to cause complaint. If any change is made we believe that this would in the long run prove the most satisfactory.

Sweet are the uses of advertising says the Kansas City Gazette. They dispel the season's duliness and remove care's wrinkles from the brow of business men They loosen purse-strings and impart a motion to the nimble dollar. They open a vista of continuous profit. They are the de-light of thrifty house-wives, and the light of thrifty house-wives, and the male bargain hunter cannot withstand their blandishments. They create values. They beget competition. They are the barometer of trade. They create fortunes. Their friends are on both sides of the counter. They educate the people, and swell the ranks of shoppers. They are a stirring force in every community in which their arts are employed. Their extent indicates the city's business, and their style the city's style. The transition from long, lingering and painful sickness to robust health marks an epoch in the life of an individual. Such a remarkable event is reasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the Great Alterative and Tonic. If you are troubled with any disease of the Kidneys, Liver or Stomach, of long or short standing you will surely find relief by the use of Electric Bit ters. Sold at an cents and, \$1.00 per bottle at Evans' Drugstore.

CARD OF THANKS.
